I desire to engage voluntarily in an exercise program in order to attempt to improve my physical fitness. I understand that the activities are designed to place a gradually increasing workload on the musculoskeletal, metabolic, and/or cardiorespiratory system and thereby attempt to improve function. The reaction of the cardiorespiratory system to such activities can't be predicted with complete accuracy. There is a risk of certain changes that might occur during or following the exercise. These changes might include abnormalities of blood pressure or heart rate.

I understand that the purpose of the exercise program is to develop and maintain cardiorespiratory fitness, body composition, flexibility, muscular strength and endurance. A specific exercise plan will be given to me, based on my needs and interest. All exercise programs include warm-up, exercise, and cool-down. The programs include, but are not limited to walking, jogging, aerobic exercise and strength training. All programs are designed to place a gradually increasing workload on the body in order to improve overall fitness. The rate of progression is regulate by exercise target heart rate and perceived effort of exercise.

I understand that I am responsible for monitoring my own condition throughout the exercise program and should any symptoms occur, I would cease my participation and inform the instructor of the symptoms.

In signing this consent form, I affirm that I have read this form in its entirety and I understand the nature of the exercise program. I also affirm that my questions regarding the exercise program have been answered to my satisfaction.

In the event that medical clearance must be obtained prior to my participation in the exercise program, I agree to consult my physician and obtain written permission from my physician prior to the commencement of any exercise program.
